

# Energize your field trip with one of these FREE 30-minute interactive programs on the economy!

## Lincoln and the \$5 Note

GRADES 5-8

Give your students a leadership lesson focused on Honest Abe and the \$5 note. Students look at a timeline of his life and identify

significant events on his road to the White House.

## It's Your Paycheck!: Invest in Yourself

GRADES 6-12

Strike up a healthy competition between your students in this activity about human capital and how it can impact a person's income level, income earning potential and unemployment.

## The Price Is ... What?!

GRADES 6-12

Engage your students in this game show-style lesson. They will learn about inflation by looking at the prices of common items over time.

## Escape the Vault

GRADES 6-12

Conquer a challenge in this timed escape room-style program. Students must solve puzzles and problems about economics, personal finance and the Federal Reserve to escape the vault before time expires.

## Currency and the Fed

GRADES 9-12

Engage your students in a lesson on the functions of money and the Fed's role in distributing it.
